Research Resources \((R^2)\)

To improve the grants preparation and submission process at MSPH

Dr. Robyn Gershon, MHS, DrPH
Background

- Anecdotal Data
- Research Administration Data
- Focus Groups
- Faculty Survey
Research Admin Data, FY 07-08

- Total # of Grants Submitted = 463
- Approximately 310 full-time plus 150 part-time/adjunct faculty members
  - Roughly 75 are Assistant Professors
- Average of 1-2 submissions per faculty/year
Focus Group Data

• Develop “Culture” of Research & Infrastructure to Support
• Identify Funding Opportunities
• Improve Collaboration Within and Across Schools
• Pool Faculty Resources & Talents
• Improve Grant-Writing Skills
• Grants Preparation & Submission
• Post-Award Management & Reporting (Research Management)
Administrative Support Survey Data*

Most Common Problems
1. Preparing Sub-Contracts
2. Creating RASCAL
3. Uploading Final Documents
4. Post – Award Project Budget
5. Post - Award Contracts

*N=84
Administrative Support Survey Data* 

**Needs**

1. Finding Funding Sources
2. Help with Budget Preparation & Sign-off
3. Completing & Uploading forms
4. Collaborations
5. Contracts
6. IRB
7. Easy Accounting System for PIs & Project Coordinators

*N=84
Administrative Support Survey Data*, FY08

56% report submitting 1-3 grants
13% report submitting 0 grants
55% have 1-2 grants funded
35% have 0 grants funded
58% plan to submit 2-3 grants in FY09
27% report being unable to submit a grant due to lack of necessary administrative support

*N=84
R² Initiatives

Improve Access to and Quality of Research-Related Resources & Infrastructure
Office of Sponsored Projects Administration

The Office of Sponsored Projects Administration (SPA) assists investigators in identifying possible sources of funding for research, training and service activities. It maintains a library of current materials on external funding opportunities and agencies and extensive electronic resources that may be accessed through its home page. To help in the preparation of grant proposals, SPA has published a Sponsored Projects Handbook, which is available in printed form or electronically.

SPA is responsible for the submission of all the proposals from the Health Sciences Division for sponsored research and for the acceptance of any awards resulting from those proposals, with the following exception: Clinical trials and many proposals to commercial entities. The Office has several additional responsibilities with respect to proposals that are accepted, including negotiating the terms of the awards, setting up financial accounts, managing those aspects of post-award administration that do not involve financial accounting, and ensuring that the terms of the award are fulfilled.

Primary responsibility for assisting administrators and investigators in the Mailman School of Public Health has been assigned to specific members of the SPA staff.
