Career Day Spring 2018

Friday, March 23, 2018
12:00 p.m.–4:00 p.m.

The Armory Foundation
216 Ft. Washington Avenue, 3rd Floor

Open to Mailman School Students and Alumni
Mailman School of Public Health Spring 2018 Career Day
Friday, March 23, 12-4pm, the Armory, 216 Fort Washington Ave. New York NY
Program as of 3/12/18

Note to Students:
The Mailman School’s Career Day is open ONLY to Mailman School students and alumni. Please RSVP on CareerLink and check CareerLink for updates. (Visit https://www.myinterface.com/mailman/event_view.aspx?token=1WJ3XxrpcA9O4Fk14hLAmdA%3d%3d or go to Career Events & Workshops in CareerLink to see the latest updates)
We encourage participants to bring several copies of their resume. Business attire is REQUIRED (suits with jackets/ties; business dresses with blazers; dress shoes; NO t-shirts, jeans, sneakers).

Please note, some employers may or may not have filled in their registration information completely. If you are interested in an employer that does not list a specific position that fits your background, or does not list an internship when you are a first year student, it may be worth speaking to the employer regardless.

This information is subject to change. We will update the information with additions and/or cancellations as much as possible. Email msphocse@csrcolumbia.edu with questions.

EMPLOYER DESCRIPTIONS

Aetion
Employer Location: New York, NY U.S.
Website: https://www.aetion.com/
Employer Description: Aetion was founded in 2013 by Harvard Medical School faculty members Sebastian Schneeweiss and Jeremy A. Rassen and big data technologist Allon Rauer. We were founded on a simple truth: the need for essential evidence to support value-based healthcare was scaling far faster than existing mechanisms could generate it. Building upon decades of experience in epidemiology, health outcomes research, computer science and information technology, the founding team quickly joined forces with leaders in financial services technology to create the industry’s most robust science and analytics platform. We launched the Aetion Evidence Platform in 2015. Today, our solutions are used worldwide to create essential evidence from real-world data to help us achieve our goals of improving the health of both patients and the healthcare system.

Charles B. Wang Community Health Center
Employer Location: New York, NY United States
Website: http://www.cbwchc.org
Employer Description: The Charles B. Wang Community Health Center is a nonprofit and federally qualified health center, established in 1971. We ensure that all members of our community—regardless of ability to pay—are provided with quality, comprehensive and culturally effective primary healthcare. As a Level 3 Patient-Centered Medical Home, we partner with you to create a health plan that meets your own unique health and social needs. Your health team starts with you and your family, and includes doctors, dentists, nurses, care managers, social workers, health educators, nutritionists and medical assistants. We are located in Chinatown, Manhattan and Flushing, Queens, and are open 7 days a week. We have staff fluent in many languages, including Mandarin, Cantonese, Taishanese, Shanghainese, Fujianese, Vietnamese, and Korean. If you don’t have health insurance, you may qualify for our sliding fee scale to reduce the cost of your care. We believe that everyone should have the same opportunity to achieve their highest level of health.

**Gevity**

**Employer Location:** New York, NY United States

**Website:** www.Gevityinc.com

**Employer Description:** Gevity is an international informatics and management consulting company offering a full range of interdisciplinary professional services to clients seeking to build sustainable and effective healthcare and social services systems. Through our focus on the unique needs of the healthcare, social services and life sciences sectors, we work to support healthier lives through connected systems.

Our services range from strategic consultancy to systems integration. Our clients span the full continuum of care and include:

* Providers – We have worked with regional health systems, hospitals, social services agencies, public health units as well as the primary care sector to help plan, implement and capture the benefits of ICT solutions.

* Public and Private Payors – Whether funded through taxation or insurance premiums, ‘payors’ have an interest in efficient healthcare delivery systems. We have been a part of this journey in several jurisdictions and have experience supporting both public and private sector payer organizations.

* Regulators – Our team is familiar with the challenges an evolving health system places on the regulatory community as it strives to keep legal and professional guidelines aligned with ongoing technology and policy innovations.

* eHealth Catalysts – Organizations such as Canada Health Infoway, Australia’s National eHealth Transition Authority (NeHTA), the US Office of the National Coordinator for Health IT (ONCHIT) and others around the globe are key to driving eHealth strategies and meaningful adoption across entire health systems. We have worked with and supported these agencies in a variety of projects.

* Professional Groups – Professional groups have a unique role in health systems across the globe. Not only do they provide the needed professional advocacy, they are often well placed to understand emerging issues in care delivery and provide a focal point of engagement. We have worked with as well as on behalf of these groups.

* Development Focused Agencies – Our newly established International Development practice is working to bring our extensive project delivery experience to address the program needs of development focused organizations.

* Life Sciences Industry – Having worked with groups such as the Clinical Data Interchange Standards Consortium to expand the Biomedical Research Integrated Domain Group (BRIDG) Model we understand the needs of protocol-driven biomedical/clinical research as well as the bedside-to-bench-and-back knowledge cycle.

To learn more about the way we engage various health, social services and life sciences groups please check out the Perspectives section.

Our experience in project and program management, governance, inter-organizational collaboration, change management, and health informatics combined with the clinical background many of our consultants bring to the task, positions us to be effective partners in our clients’ projects.

Global Healthy Living Foundation

**Employer Location:** Upper Nyack, NY United States  
**Website:** www.ghlf.org

**Employer Description:** We are a 501(c) non-profit chronic disease patient advocacy organization, founded in 1999. Our main mission is to improve the quality of life for people living with chronic illnesses. We accomplish our mission by advocating for patients in order to break down barriers to care, to transform the delivery of healthcare to make it more patient-centric, and to reform healthcare policy and legislation at both the state and national level. We also have a strong focus on education about the importance of diagnosis, early and innovative medical treatments, lifestyle improvements, and treatment adherence. In addition, we create and sustain large and very popular disease-specific online communities (E.g. www.creakyjoints.org).

Mount Sinai Health System (Strategic Operations and Implementation)

Employer Location: New York, NY
Website: http://www.mountsinai.org/

Employer Description: The Mount Sinai Health System is an integrated health care system providing exceptional medical care to our local and global communities. Encompassing the Icahn School of Medicine at Mount Sinai and seven hospital campuses in the New York metropolitan area, as well as a large, regional ambulatory footprint, Mount Sinai is internationally acclaimed for its excellence in research, patient care, and education across a range of specialties. The Mount Sinai Health System was created from the combination of the Mount Sinai Medical Center and Continuum Health Partners, which both agreed unanimously to combine the two entities in July 2013. The Health System is designed to increase efficiencies and economies of scale; improve quality and outcomes; and expand access to advanced primary, specialty, and ambulatory care services throughout a wide clinical network. The Health System includes more than 7,000 primary and specialty care physicians and 12 minority-owned free-standing ambulatory surgery centers. Mount Sinai also features a robust and continually expanding network of multispecialty services, including more than 45 ambulatory practices throughout the five boroughs of New York City, Westchester, and Long Island. It has more than 40 clinical and academic relationships with other local health care organizations. Mount Sinai physicians can be found in more than 300 community locations throughout the New York metropolitan area. With an extraordinary array of resources for the provision of compassionate, state-of-the-art care, the Mount Sinai Health System is poised to identify and respond to the health-related needs of the diverse populations we serve.

NADAP

Employer Location: New York, NY United States
Website: http://www.nadap.org/

Employer Description: Founded in 1971, NADAP is a private nonprofit corporation that serves residents of the New York City metropolitan area. Initially, NADAP focused on employment readiness and job placement for people with substance use disorders. Today, NADAP has significantly expanded its service portfolio to respond to the broader needs of New Yorkers struggling with substance use, mental and physical health conditions as well as poverty and lack of social capital, which tend to exacerbate health issues. Today, NADAP operates a full range of programs that connect more than 35,000 disadvantaged New Yorkers per year with jobs, community supports, health care, and other resources that enable them to improve their physical, emotional, social, and economic stability and well-being.

Positions Available (if known): Care Manager/Case Manager, Community Enrollment Specialist, Job Developer, Substance Abuse Counselor, Orientation Facilitator, IPA Navigator, Career Readiness Instructor

Job Functions: Social Work

Position Types: Social Work

Work Authorization: Authorized to work in the U.S.
New York City Department of Health and Mental Hygiene

Employer Location: Long Island City, NY
Website: www.nyc.gov/health

Employer Description: Welcome to the New York City Department of Health and Mental Hygiene. With an annual budget of $1.6 billion and more than 6,000 employees throughout the five boroughs, we're one of the largest public health agencies in the world. We're also one of the nation's oldest public health agencies, with more than 200 years of leadership in the field. Every day, we protect and promote the health of 8 million diverse New Yorkers. Our work is broad-ranging. You see us in the inspection grades of dining establishments, the licenses dogs wear, the low- to no-cost health clinics in your neighborhood, and the birth certificates for our littlest New Yorkers. We're also behind the scenes with our disease detectives, investigating suspicious clusters of illness. Our epidemiologists study the patterns, causes and effects of health and disease conditions in New York City neighborhoods. These studies shape policy decisions and the City's health agenda. The challenges we face are many. They range from obesity, diabetes and heart disease to HIV/AIDS, tobacco addiction, substance abuse and the threat of bioterrorism. We're also working to address enduring gaps in health between white New Yorkers and communities of color. Structural racism is at the root of these health inequities, which is why the Department has made racial justice a priority. The New York City Health Department is tackling these issues with innovative policies and programs, and getting exceptional results.

Degrees Sought: Master of Public Health (MPH)

Job Functions: Research

Position Types: Full-time Experienced

Work Authorization: Authorized to work in the U.S.

New York City Department of Health and Mental Hygiene--Health Research Training Program (HRTP)

Employer Location: Queens, NY United States

Employer Description: HRTP: A Public Health Internship Program at the NYC Health Department is one of the oldest and largest public health traineeships in the country! For over 50 years, HRTP has provided the opportunity for undergraduate, graduate and professional school students to experience some of the "real life" challenges of public health. By working on current relevant public health issues under the close supervision and mentorship of experienced professionals, students apply classroom learning to practical problems in a closely matched practicum and, in the process, learn critical skills needed to excel in the field.

Positions Available (if known): Internship

Degrees Sought: Doctor of Public Health (DrPH), Executive Master of Public Health, Master of Public Health (MPH), Master of Science (MS)

Position Types: Full-time, Internship, Other (Volunteer, Board of Directors, Competitions etc.), Part-time

New York State Psychiatric Institute
Employer Location: New York, NY United States
Website: www.SidneyHankerson.com
Employer Description: The New York State Psychiatric Institute (NYSPI), established in 1895, was one of the first institutions in the United States to integrate teaching, research and therapeutic approaches to the care of patients with mental illnesses. In 1925, NYSPI affiliated with Presbyterian Hospital, adding general hospital facilities to the Institute’s psychiatric services and research laboratories. These treatment, training, and research facilities were supplemented in 1983 by a 14-floor Psychiatric Research Building, the Kolb Annex. The NYSPI was further modernized in 1998 by opening of a new hospital building to replace the original one. Overlooking the Hudson River and George Washington Bridge, the new Psychiatric Institute provides a state-of-the art environment for patient care, education, and research. The approximately 320,000 square feet offer space for 60 inpatient beds, 23 specialized outpatient research clinics, educational facilities, and research laboratories. Walkway bridges to and from the Kolb Annex and New York Presbyterian Hospital provide comfortable and efficient all-weather avenues for patient and staff travel within the Columbia University Medical Center. Since its inception, NYSPI has been at the forefront of psychiatry, making major contributions to the clinical care and understanding of the mentally ill. Among these accomplishments are: the discovery of the spirochaetal origin of general paresis, the earliest use of lithium in the United States, the first data describing a genetic predisposition to schizophrenia, leadership in the discovery of the genes causing Huntington’s and Wilson's disease, and the development of DSM-III, DSM III-R and DSM-IV.

Through the years, distinguished figures in American psychiatry have served as directors of the Psychiatric Institute, including Drs. Ira Van Giesen, Adolph Meyer, August Hoch, Lawrence Kolb, Edward Sachar and Herbert Pardes. It is now led by a noted academic psychiatrist, Dr. Jeffrey Lieberman. The Institute is the flagship for the Columbia University Department of Psychiatry, for which it is the primary location of research and educational activities.

**NYC Elder Abuse Center (Weill Cornell Medical College)**

**Employer Location:** New York, NY  
**Website:** http://nyceac.com/  
**Employer Description:** The New York City Elder Abuse Center (NYCEAC) a project of the Division of Geriatrics and Palliative Medicine, Weill Cornell Medicine, is a leader in developing innovative and effective responses to elder abuse, neglect and exploitation. NYCEAC was launched in 2009 to provide professionals in NYC’s many government, non-profit agencies, financial institutions and others with the information and tools they need to effectively assist victims of elder abuse. NYCEAC accomplishes this through an unprecedented level of collaboration and coordination. NYCEAC provides a streamlined and rapid response to elder abuse cases in Manhattan and Brooklyn through its multidisciplinary teams (MDTs) and case consultations. The expertise and resources provided by the participating agencies reduces systems fragmentation and minimizes gaps and overlap of services. Several of WCMC medical professionals serve on the MDTs and Dr. Mark Lachs is NYCEAC's Medical Director. Through its wide-reaching educational trainings, social media vehicles and weekly blogs, NYCEAC further engages professionals around pertinent issues confronting the elder justice field. In addition, NYCEAC works with key decision-makers, organizations and systems to conduct research and develop innovative practices and policies to enhance their abilities to meet the many needs of older victims. NYCEAC’s vision is to partner with its collaborative network to guarantee that elders live with dignity and well being, free from abuse and neglect.  

**Positions Available (if known):** Program Assistant, NYCEAC Special Projects

**NYU School of Medicine, Department of Pediatrics Environmental Pediatrics**  
**Employer Location:** New York, NY USA.  
**Website:** https://med.nyu.edu/pediatrics/research/environmentalpediatrics  
**Employer Description:** Researchers in the Division of Environmental Pediatrics at NYU Langone Health are working to better understand the helpful and harmful effects that environmental elements have on children's health and development. With funding from the National Institutes of Health's Environmental Influences on Child Health Outcomes Program (ECHO), Leonardo Trasande, MD, MPP, and his team are offering women of childbearing age the opportunity to participate in research to examine how exposures to environmental factors may be associated with health and a predisposition to conditions such as asthma, obesity, diabetes, autism, and attention deficit disorder. Women who participate in the Children's Health and Environment Study, or CHES, at NYU Langone are eligible to participate in the ECHO program, which partners with many academic sites nationwide to determine the long-term health effects of early-life environmental exposures. As part of CHES, NYU Langone researchers collect specimens from women during pregnancy and at the time of their newborn's delivery. They then perform tests on specimens from CHES, as well as on new specimens collected after birth as part of the postnatal portion ECHO.  

**Positions Available (if known):** Research Data Associate, Research Data Associate/Radiology Technician  
**Degrees Sought:** Master of Public Health (MPH)

**NYU Section for Health Equity / Center for the Study of Asian American Health**

**Employer Location:** New York, NY USA

**Website:** [http://www.med.nyu.edu/asian-health/](http://www.med.nyu.edu/asian-health/)

**Employer Description:** The vision of the Section for Health Equity is to promote health equity in racial and ethnic minority populations and socially disadvantaged communities through community engagement, research, training, and policy.

The Section for Health Equity is guided by a multi-prong framework that integrates:
- Social determinants approach that recognizes the role of social factors and structural determinants in the production of health disparities and inequities.
- Health in all policy approach that includes stakeholders from multiple sectors (both health and non-health) in developing shared strategies that promote health equity and applies a participatory action approach.
- Asset-building strategies that build on community and individual assets and resources for reducing health disparities and promoting health equity. Many of its research programs are focused on the community health worker model and other family-centered, culturally-appropriate approaches to improving health.

The NYU Center for the Study of Asian American Health (CSAAH) is a National Institutes of Health (NIH) National Institute on Minority Health and Health Disparities (NIMHD) funded National Research Center of Excellence. It is based in the Section for Health Equity within the Department of Population Health at NYU School of Medicine. Established in 2003 through an NIH NCMHD Project EXPORT (Excellence in Partnership, Outreach, Research, and Training) Center grant, CSAAH is the only Center of its kind in the country that is solely dedicated to research and evaluation on Asian American health and health disparities. CSAAH is committed to identifying Asian American health priorities and reducing health disparities by integrating and building on the work of researchers and over 55 Asian American community, government, business and academic/medical partners.

NYU CSAAH's mission is to identify health priorities and reduce health disparities in the Asian American community through research, training and partnership.
